# Safety Data Sheet

**Revision date:** 09.28.2015  
**Date of issue:** 09.28.2015

## Sr. No. | Title of the section | Information required in this section
---|---|---
1. | Identification of the substance & of the company | |
1.1 | Identification of the substance or preparation | |
1.1.1 | Trade Name: LAKE RESTORATION, INC. Dibrox Herbicide |
1.1.2 | EPA Registration No. of the chemical: 83529-12-84868 |
1.2 | Other identification | |
1.2.1 | Active Substance name: 3,6-dichloro-o-anisic acid |
1.2.2 | CAS No.: 85-00-7 |
1.3 | Use of the substance/ preparation | |
1.3.1 | Recommended uses: | ✓ Herbicide application  
✓ Diquat dibromide can be used to treat irrigation systems and agricultural drainage systems. |
1.3.2 | Restricted uses: Not known as on date |
1.4 | Company/ under - taking identification | |
1.4.1 | Company name: LAKE RESTORATION, INC. |
1.4.2 | Contact Person: Kevin Kretsch, President |
1.4.3 | Manufacturing site address: Lake Restoration, Inc.  
12425 Ironwood Circle, Rogers, MN 55374 |
1.4.4 | Telephone number: (763) 428-9777 |
1.4.5 | Fax number: (763) 428-1543 |
1.4.6 | E-mail: LRMail@LakeRestoration.com  
WEBSITE: www.LakeRestoration.com |
1.5 | Emergency telephone | |
1.5.1 | Emergency telephone number: 1(800) 222-1222  
CHEMTREC PHONE: 1(800) 424-9300 |
1.5.2 | Telephone number of USA importer: (610) 350-6930 |
1.5.3 | Opening hours: 24 hrs |
2. | Hazard Identification | |
2.1 | Classification of the substance according to Regulation 1910.1200 [GHS] | Classification: Eye Damage 1, Skin irritation 2, Acute Tox. 3 – Oral, Skin Sensitization 1, Acute Tox. 2 – Inhalation, STOT SE 3, STOT RE 1, Aquatic Acute 1, Aquatic Chronic 3 |
| | Hazard statement: | ✓ H318 – Causes serious eye damage  
✓ H315 - Causes skin irritation  
✓ H301 – Toxic if swallowed  
✓ H317 – May cause an allergic skin reaction  
✓ H330 – Fatal if inhaled  
✓ H335 – May cause respiratory irritation  
✓ H372 – Cause damage to organs through prolonged or repeated exposure  
✓ H400 – Very toxic to aquatic life  
✓ H412 - Harmful to aquatic life with long lasting effects |
| | Signal Word: | Danger |
| | Hazard pictograms: | ![GHS07](image) ![GHS08](image) ![GHS09](image) ![GHS06](image) |
| | Precautionary statements: | P264 – Wash face, hands and any exposed skin thoroughly after handling  
P280 – Wear protective gloves/ protective clothing/eye protection/face protection.  
P330 – Rinse mouth  
P301 + P312 – IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.  
P501 – Dispose of contents/ container in accordance with local/ regional/national/international regulation  
P302 + P352 – IF ON SKIN: Wash with plenty of soap and water.  
P332 + P313 – If skin irritation occurs: Get medical advice/attention |
P321 – Specific treatment (Reference to supplemental first aid instruction on the label).
P362 – Take off contaminated clothing and wash before reuse.
P305 + P351 + P338 – If IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P261 – Avoid breathing dust/fume/gas/mist/vapours/spray.
P272 – Contaminated work clothing should not be allowed out of the workplace.
P302 + P352 – IF ON SKIN: Wash with plenty of soap and water.
P333 + P313 – If skin irritation or rash occurs: Get medical advice/attention.
P405 – Store locked up.
P270 – Do not eat, drink or smoke when using this product.
P314 – Get medical advice/attention if you feel unwell.
P273 – Avoid release to the environment.
P363 – Wash contaminated clothing before reuse.
P284 – Wear respiratory protection
P310 – Immediately call a POISON CENTER or doctor/physician.
P320 – Specific treatment is urgent (see if immediate administration of antidote is required on this label).
P312 – Call a POISON CENTER or doctor/physician if you feel unwell.
P403 + P233 – Store in a well-ventilated place. Keep container tightly closed.
P271 – Use only outdoors or in a well-ventilated area.
P304 + P340 – IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing

2.2 Other Information

Hazard Ratings : NFPA
Health: 4
Flammability: 0
Reactivity: 0

Hazard Ratings : HMIS
Health: 4
Flammability: 0
Reactivity: 0

ROUTES OF ENTRY: Ingestion, Inhalation, eye, and dermal contact

3. Composition /Information on Ingredients

3.2 Common name and synonyms

Details not known

3.3 Classified Impurities and stabilizing additives contributing to classification of the chemical

No major known impurity have Carcinogen, Mutagen & Reprotoxic (CMR) classification which can contribute to the Classification & Labelling of the chemical.

4. First Aid Measures

4.1 Description of first aid measures

- General Information: Immediately remove any clothing soiled by the product. Symptoms of poisoning may even occur after several hours; medical observation for at least 48 hrs after the accident is recommended. Remove breathing apparatus only after contaminated clothing have been completely removed. In case of irregular breathing or respiratory arrest provide artificial respiration.

- Inhalation: Remove source of contamination or move victim to fresh air. Keep victim warm and at rest. Treat symptomatically and supportively. Obtain medical advice if necessary.
- **Skin contact**: Remove contaminated clothing, shoes and leather goods. Wash skin gently and thoroughly with water and non-abrasive soap. Persons who become sensitised may require specialised medical management with anti-inflammatory agents.
- **Eye contact**: Immediately flush the eyes with gently flowing lukewarm water or saline solution for 20 minutes, occasionally lifting the upper and lower lids. Specialised ophthalmologic treatment might be required.
- **Oral**: Do not induce emesis. Seek medical advice.

### 4.2 Important symptoms & effects
Possible symptoms are as per the hazard identified in section 2 of the SDS, known symptoms being skin and eye irritation, causing redness and pain.

### 4.3 Immediate medical attention
**Notes for the doctor**: There is no specific antidote. Appropriate supportive and symptomatic treatment as indicated by the patient’s condition is recommended.

For 24-hour medical emergency assistance (human or animal) call 1-800-222-1222. For chemical emergency assistance (spill, leak, fire, or accident) call ChemTrec at 1-800-424-9300.

### 5. Fire Fighting Measures

#### 5.1 Suitable extinguishing media
Water, foam, carbon dioxide.

#### 5.2 Special hazard arising from the chemical
Carbon oxides, Hydrogen chloride gas, nitrogen oxides (NOx)

### 5.3 Special protective equipment and precautions for firefighters
As in any fire, wear full protective clothing and self-contained breathing apparatus with full face piece operated in pressure-demand or other positive pressure mode.

### 6. Accidental Release Measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

##### 6.1.1 For non-emergency personnel
- **Protective equipment**: Wear appropriate protective eyeglasses, splash goggles or chemical safety goggles and appropriate respiratory equipment. Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls as appropriate to prevent skin contact.
- **Emergency procedures**: Remove an incapacitated worker from further exposure. Keep unconscious victims warm and on their sides to avoid choking if vomiting occurs. Initiate the measures / procedures as mentioned in Section 4.
- **Removal of ignition sources**: Disconnect electrical connection and all other sources of ignition.
- **Provision of sufficient ventilation**: Adequate ventilation should be provided when accidental release occurs.

##### 6.1.2 For emergency responders: Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Do not touch the spilled material. Avoid the spread of the spillage by using adsorbents, if this can be done without risks. Ground all equipment containing material.

#### 6.2 Methods and material for containment and cleaning up

##### 6.2.1 Cleaning techniques:
Control the spill at its source. Contain the spill to prevent from spreading or contaminating soil or from entering sewage and drainage systems or any body of water. Clean up spills immediately. Isolate hazard area. Keep unnecessary and unprotected personnel from entering.

##### 6.2.2 Vacuuming techniques:
Sweep or vacuum up spillage and collect in suitable container for disposal

##### 6.2.3 Equipment required for containment/clean-up:
Use approved industrial vacuum cleaner for removal. Shovel into suitable container for disposal.
### 7. Handling and Storage

#### 7.1 Precautions for safe handling

**7.1.1. Recommendations shall be specified to:**
Read label carefully before use. Avoid contact with skin, eyes or clothing. Avoid breathing dust. Remove personal protective equipment (PPE) immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**7.1.2. Advice on general occupational hygiene:**
(a) not to eat, drink and smoke in work areas
(b) to wash hands after use; and
(c) To remove contaminated clothing and protective equipment before entering eating areas

#### 7.2 Conditions for safe storage, including any incompatibilities

(a) **How to manage risks associated with storage:**
Store the material in a well-ventilated, secure area out of reach of children and domestic animals. Do not store food, beverages or tobacco product in the storage area. Prevent eating, drinking, tobacco use and cosmetic application in areas where there is a potential for exposure to the material. Wash thoroughly with soap and water after handling.

(b) **Other advice including:** Do not contaminate water, food, or feed by storage or disposal. Store in cool place. Keep container tightly closed in a dry and well-ventilated place.

### 8. Exposure Controls / Personal Protection

#### 8.1 Control parameters

<table>
<thead>
<tr>
<th>Country</th>
<th>Exposure limit description</th>
<th>Medium – AIR Specification – Work Place</th>
</tr>
</thead>
</table>
| Australia   | Threshold limit value (TLV) | - Time-weighted average (TWA) = 0.5 mg/m³  
               |                             | - Short-term exposure limit (STEL) = 1 mg/m³  |
| Belgium     | Tolerable limit value (TLV) | - Time-weighted average (TWA) = 0.5 mg/m³  
               |                             | - Short-term exposure level (STEL) = 1 mg/m³  |
| Bulgaria    | Maximum permissible concentration | - Time-weighted average (TWA) = 0.5 mg/m³  |
| Finland     | Maximum permissible concentration | - Time-weighted average (TWA) = 0.5 mg/m³  
               |                             | - Short-term exposure limit (STEL) = 1.5 mg/m³  |
| Switzerland | Maximum work-site concentration (MAK) | - Time-weighted average (TWA) = 0.5 mg/m³  |
| USA (OSHA)  | Permissible exposure limit (PEL) | - Time-weighted average (TWA) = 0.5 mg/m³  |
| USA (ACGIH) | Threshold limit value (TLV) | - Time-weighted average (TWA) = 0.5 mg/m³  |
| United Kingdom | Recommended limit (RECL) | - 8-h time-weighted average (TWA) = 0.5 mg/m³  
                       |                             | - Short-term exposure level (STEL) = 1 mg/m³  
                             |                             | (10-min time-weighted average) |

#### 8.2. Exposure controls

**8.2.1 Appropriate engineering controls**
A system of general or local exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value needs to be provided. Ensure that eyewash stations and safety showers are proximal to the work-station location. Do not release to the atmosphere or water streams.

**8.2.2 Individual protection measures**

(a) **Eye / face protection:** Wear appropriate protective eyeglasses, splash goggles or chemical safety goggles and face shield.
(b) **Skin protection:** Wear appropriate protective clothing like impervious lab coat, apron or coveralls.

   (i) **Hand protection:** Use compatible chemical / solvent resistant protective gloves made of suitable materials like rubber, plastic, etc.

   (ii) **Other:** Wear appropriate boots and other footwear.

(c) **Respiratory protection:** In case of brief exposure or low pollution, use respiratory filter device. In case of intensive or longer exposure, use self-contained respiratory protective device. Short term filter device: Filter AX. In case of emergency spills, use a NIOSH approved respirator with any N, R, P, or HE filter.

(d) **General protective and hygienic measures:**

   - Keep away from foodstuffs, beverages and feed.
   - Immediately remove all soiled and contaminated clothing.
   - Wash hands before breaks and at the end of work.
   - Store protective clothing separately.

## Toxicological Information

### 11.1 Information on toxicological effects

- **(a) acute toxicity**: Acute oral toxicity -4; Acute inhalation toxicity - 2
- **(b) skin corrosion/irritation**: irritant to skin in category 2
- **(c) serious eye damage/irritation**: eye irritant in category 2
- **(d) respiratory or skin sensitization**: Skin sensitizing in category 1
- **(e) Carcinogenicity**: no known evidence
- **(g) reproductive toxicity**: no known evidence
- **(h) STOT-single exposure**: STOT SE 1
- **(i) STOT-repeated exposure**: STOT RE 1

### 11.2 Numerical measures of toxicity (such as acute toxicity estimates)

- **Oral LD50 (Rat)** = 120 mg/kg; 233 mg/kg in mice, and 188 mg/kg in rabbits.
- **Inhalation**: Inhalation of diquat dibromide may cause coughing and sore throat. Exposing the skin and eyes may cause redness and pain.

### 11.3 Chemical if, listed in NTP or IARC or by OSHA as Carcinogens

Diquat dibromide is not classified as a tumor-causing chemical. An 80-week feeding study showed that dietary doses of 15 mg/kg/day of diquat dibromide did not cause tumors in rats. Likewise, dietary levels of 36 mg/kg/day for two years did not induce tumors in rats.

### 11.4 Other information

Product shows following danger according to internally approved calculation methods for preparation

- Very Toxic
- Dangerous for the environment

## Ecological Information

### 12.1 Eco – Toxicity

- **Freshwater Algae Data**: 96 Hr EC50 Selenastrum capricornutum = 0.011 mg/L
- **Water Flea Data**: 48 Hr EC50 Daphnia magna = 1.2 mg/L
- **Rainbow Trout 96-hour LC50**: 21 mg/L
- **Mirror Carp 96 hours LC50**: 67 mg/L

### 12.2 Persistence and degradability

- **Probability of Rapid Biodegradation (BIOWIN v4.10)**:
  - Biowin1 (Linear Model Prediction): Biodegrades Fast
  - Biowin2 (Non-Linear Model Prediction): Does Not Biodegrade Fast
  - Biowin3 (Ultimate Biodegradation Timeframe): Weeks-Months
  - Biowin4 (Primary Biodegradation Timeframe): Days-Weeks
  - Biowin5 (MITI Linear Model Prediction): Does Not Biodegrade Fast
  - Biowin6 (MITI Non-Linear Model Prediction): Does Not Biodegrade Fast
12.3 Bioaccumulative potential

Summary Results:
- Log BCF (regression-based estimate): 0.50 (BCF = 3.16 L/kg wet-wt)
- Biotransformation Half-Life (days): 0.0076 (normalized to 10 g fish)
- Log BAF (Arnott-Gobas upper trophic): -0.05 (BAF = 0.893 L/kg wet-wt)

**Persistence:** Typical half-life is 1000 d. Diquat dibromide is highly persistent due to strong binding to clay and unavailability to microbes. Diquat dibromide in soil is not taken up by plants, so any crop can be seeded at any time after application.

**Mobility:** Immobile in soil (Diquat)

### Level III Fugacity Model:

Percent Reacted: 79.6
Percent Advected: 20.4

12.4 Environmental fate (exposure)

12.5 Other adverse effects

The product is not a PBT chemical

13. Disposal Considerations

13.1 Waste treatment methods

(a) Waste treatment containers and methods:

Waste Disposal Method: Product disposal – Pesticide wastes may be acutely hazardous. Improper disposal is a violation of federal law. Pesticide, mixtures, or equipment rinse water that cannot be chemically reprocessed must be disposed of according to applicable federal, state or local regulations. Contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional office for guidance.

Container disposal – Dispose of product containers, waste containers, and residues according to label instructions and local, state, and federal health and environmental regulations.

(b) Sewage disposal: Sewage disposal shall be discouraged

13.2 Additional information:

RCRA HAZARD CLASS: Under RCRA, it is the responsibility of the product user to determine at the time of disposal, whether a material containing the product or derived from the product should be classified as a hazardous waste.

14. Transport Information

14.1. UN number : UN3082

14.2. UN proper shipping name :

ADR: 3082 Environmentally hazardous substance, solid toxic, n.o.s (diquat dibromide),
DOT: Environmentally hazardous substance, solid toxic, n.o.s (diquat dibromide)
IMDG: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID , N.O.S (diquat dibromide), MARINE POLLUTANT
IATA: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID TOXIC, N.O.S (diquat dibromide)

14.3. Transport hazard class(es): 9 Miscellaneous dangerous substance and articles

14.4. Packing group : III

14.5. Environmental hazards (e.g., Marine pollutant (Yes/No)) : Yes
14.6. Special precautions for user:

<table>
<thead>
<tr>
<th>Warning</th>
<th>Miscellaneous dangerous substance and articles</th>
</tr>
</thead>
</table>

- Danger code (kemler): 90
- EMS number : F-A,S-F

14.7. Quantity specification:

- Transport in bulk according to Annex II of MARPOL 73/78 and the IBC code: Not applicable

15. Regulatory Information
